

Data dictionary

Units are **Tk crore** unless noted. Population is persons (BBS Census 2022). CVI is the LoGIC district index (0–1 scale as published). Poverty is percent of population below the poverty line (Poverty Map 2022).

annex2-projects.csv (521 rows)

Field	Type	Description
project_code	string (9 digits)	iBAS++ / annex project code
ministry_code	string	Ministry / division header code from annex grouping (may be blank)
project_title	string	Original project title from Annexure 2 (OCR/PDF line-wrap cleaned)
gob_cr	number	Government of Bangladesh annual budget, Tk crore
external_loan_cr	number	External loan portion, Tk crore
gross_budget_cr	number	Total annual project budget in annex (gob + loan), Tk crore

annex2-projects-geocoded.csv

All fields above, plus:

Field	Type	Description
location_class	enum	district_locatable · location_not_stated · national_or_block · region_only
assigned_districts	string	Semicolon-separated canonical district names; empty if not locatable
n_districts	integer	Count of assigned districts
geocode_rule	enum	exact_district_name · upazila_match · landmark · multi_equal_split · location_not_stated · national_or_block · region_only
geocode_confidence	enum	high · medium · n/a
split_method	enum	single · equal · blank
gross_per_district_cr	number	gross_budget_cr / n_districts when locatable
scaled_climate_proxy_cr	number	gross_budget_cr × 0.422590339 (uniform climate-relevance factor)
scaled_per_district_cr	number	Equal-split climate proxy per district

Multi-district splitting method

When a title names **n > 1** districts, the annual gross budget is divided **equally** (1/n) because work-package values are not published. This matches the story methodology note and is especially consequential for regional / Hill Tracts portfolios.

district-fairness.csv (64 rows)

Field	Type	Description
district	string	Canonical story name
geo_name	string	Boundary / GeoJSON name

division	string	Administrative division
population	integer	BBS Census 2022
cvi	number	LoGIC Climate Vulnerability Index
poverty_pct	number	Poverty Map 2022 rate (%)
visible_gross_cr	number	Locatable gross project budget assigned to the district (Static Edition)
fairness_index	number	Visible money share ÷ (population × CVI) need share
proxy_tk_per_vulnerable	number	Illustrative Tk per vulnerable-resident equivalent (scaled)
confidence	enum	exact (25 rows from Static Edition tables) or provisional (39 rows pending full companion concordance)

division-disaster-losses.csv

Field	Description
share_of_bdrs_losses_pct	Division share of average annual disaster losses (BDRS 2021, table 31)
share_of_locatable_budgets_pct	Division share of district-locatable annex budgets (title geocoding)

geography-segments.csv

Published Part 1 stack: district-locatable / unstated / national-or-block / region-only project counts, gross Tk crore, and percent of Tk87,868.62 crore.
